We've looked over the annotated doc record and the list of final QA review issues. I'm attaching our review of the doc record. My replies **were** noted as being from Lorie Baker, but when I saved the document, they all changed to "Author", so hard to distinguish from your original comments except that they are indented responses to your comments.

Please let me know if you need anything else,

Thanks!

Lorie

If the Region would like to make any changes to the attached annotated HRS documentation record, figures and/or references, we respectfully request that those changes be submitted to us on or before October 3, 2019, so that we may incorporate them into the HRS package and final QA review deliverable.

If you have any questions or would like to discuss any of the remaining issues, please do not hesitate ask.
